TAUP Urges Temple to Distribute Funds

In October, 2008, Temple management announced that they had created a pool of \$852,000 to increase the base salaries of about 140 faculty members who were identified to have had their salaries lag behind their peers.

Under the current TAUP/TU contract, management has the right to increase member salaries at any time.

TAUP sees no obstacle to immediate implementation of these increases and urges Temple to distribute the funds without delay.
